Spring Semester (Semester 10): Research Project (30 ECTS)

- Presentation of internships: **October 6th, 2025** (tentative)
- You can choose either professional or research internship but your subject should be approved by MoSIG directors
- If you choose an internship outside Grenoble or in a company you have to ask a professor to be your tutor
- For a research internships, you need to designate a neutral external expert for the defense
- Once your subject approved you have to register, by choosing the date of your defense (June or September) and filling internship information

<https://framaforms.org/internship-registration-form-m2-mosig-2025-2026-1757789259>

Without this registration your defense will not be programmed

Internship Evaluation

Internship grade

- Accounts for half of your master grade
- Mandatory: **internship report** and **defense presentation**
- **Weighted average of the supervisor evaluation, the external expert's review (for research projects) and the defense evaluation**
 - Supervisor evaluation: autonomy, involvement and teamwork
 - External expert: thesis report structure and research quality
 - Defense jury: president of jury (lecturer from specialization) + supervisor(s) + tutor + external expert (if research)
- **If your thesis is plagiarized, you can lose your scholarship or at the very least have to repeat your internship**

Juries

- Juries of Semester 9 (March, 2026) and Semester 10 (The week of June the 26th; Week of September the 5th) are **independent** of each other
- Validation of a semester
 - All **UE ≥ 10** -> OK!
 - **No UEs < 7** and semester **average above 10** -> OK!
(UE = teaching unit *e.g.* 1 course)
- You can retake an exam if the UE mark is < 10 (you may have to refuse the semester validation)
- If you are sick on the day of an exam, make sure to show a certificate to Stéphanie or Numa
